- Time Management & Efficiency

EDUCATION

- Diploma in Drafting & Designing- Aligarh Muslim University, India (1986 – 1989)
- Certification Course in AutoCAD- Aligarh, India (1992)
- Certification Course in Revit- Dubai, UAE (2019)

PROFESSIONAL SUMMARY

I am a Senior Architectural CAD Technician with over 35 years of hands-on experience in architectural drafting and detailing, including 25 years in the UAE.

I have contributed to a wide range of projects across the Middle East. My work spans high-rise residential and commercial towers, hospitals, government buildings, and large-scale mixed-use developments.

I specialize in producing accurate, coordinated architectural drawings that meet project requirements and design standards. I pay close attention to detail and focus on preparing clear and accurate design drawings that support the overall project process.

WORK EXPERIENCE

- Al Fakhama Architects—Erbil, Iraq (March 2023 to March 2024)

JOB RESPONSIBILITIES

- Supervision of team of Architectural Technologists to prepare Working Drawings and Submission Drawings.
- Preparation of detailed Architectural Working Drawings, including Plans, Elevations, Sections, Wall Sections and Schedules of Openings.
- Developing specialized details such as substations, garbage enclosures, ramps, staircases, kitchens, bathrooms, and swimming pool as per Project Manager and Architects' briefs.
- Preparation of submission drawings in compliance with municipality regulations.
- Integrating structural and MEP designs into architectural plans, sections, and wall sections to ensure cohesive and functional designs. This process involves close collaboration with engineers to address any potential conflicts and optimize the overall design. Additionally, it is essential to maintain clear communication with all stakeholders throughout the project to facilitate timely revisions and approvals.
